# MarkMagic Solutions

Got Printing Challenges? We've got You Covered.

MarkMagic is the forms, barcode label, RFID tag, and report writing software that's integrated into VAI S2k ERP software. Unleash the power of world-class printing ALREADY installed with VAI's S2k and ready to use.

The Printing Engine Inside VAI S2k

MarkMagic printing functions are built into VAI S2k, and already installed on your server. No messy uploading, downloading, or creating special printer queues.

Get started immediately with VAI's preloaded formats. Plus, hundreds of other popular E-commerce and compliance MarkMagic formats are at your fingertips. Any existing legacy formats that you already have – no matter how they were originally created – can be easily imported into MarkMagic

AS/400 Native

MarkMagic runs on all major computing platforms, including Windows, Linux, Unix, cloud and IBM Power Systems (System i, iSeries, AS/400, AIX).

600+ Printers Supported

MarkMagic supports hundreds of printer types. PDF files can be emailed to customers. Add unlimited printers and users at no extra charge.

VAI S2k Integrated

MarkMagic is already integrated with VAI S2k ERP software. No uploading, downloading, or creating special printer queues.
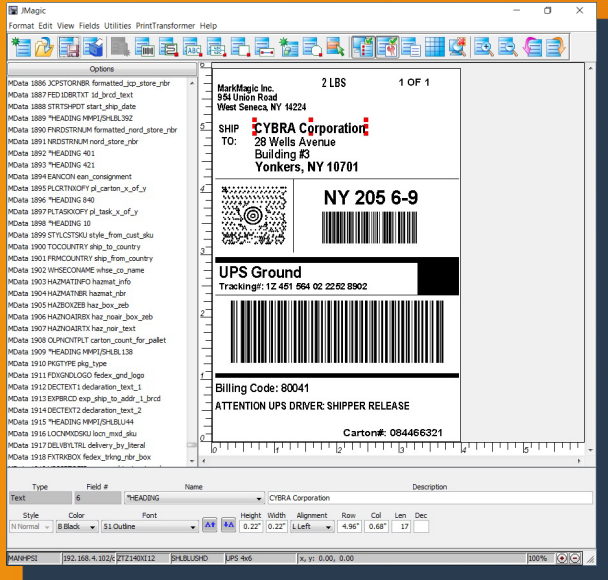

Want More Out of Your VAI S2k License?

Hundreds of happy VAI S2k customers are enjoying the full range of benefits that MarkMagic has to offer. It literally takes just a few minutes.
