Velocity Telnet Modernization

Modernize for a touch navigation experience by bringing your existing telnet apps to the latest mobile OS with Velocity, powered by Wavelink.

Velocity brings renewed power to your existing retail, WMS, ERP and other host applications.

Download Software

Reduce Training to 15 min
Users will be more productive thanks to a familiar, intuitive software interface

Achieve Project Milestones
Our Rapid platform makes it easy to configure new mobile computers for production

Boost Your Perfect Order Rate
Easily add images of product and pick items and help workers improve accuracy

Speed up Transactions
Optimize workflows and eliminate redundant tasks with scripting and automation

Stay Connected
Session persistence safeguards against data loss where network performance is questionable

Preserve Host Systems
Get the latest mobile experience without changes to your enterprise systems
